Alucast

Alucast - Part No 911

Materials:

Aluminum seal and
Galvanized Steel Wire

Operational length:

Depends on the length of wire
used. Minimum slot size for bail
to pass through depends on
wire thickness.

Color:

Metallic Gray

Packing:

1,000 per poly bag

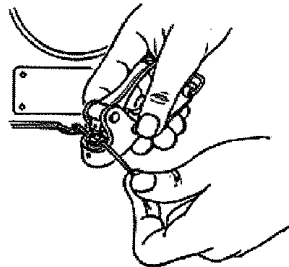

Gross Weight: (without wire)

#911 seal: 2 lbs. per thousand

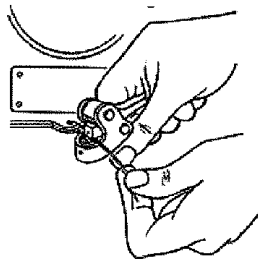

Box Dimensions:

Various

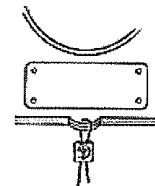

Apply

1. Pass wire through item to be sealed. Insert wire end or ends into Alucast seal. Pull wire tight to decrease loop size.

2. Fit seal into jaws of sealing tool and firmly compress handles.

3. Pull on seal to insure the wire is firmly crimped in the seal.
